ABOUT ME

I am a 6th semester Information Systems student at Multimedia Nusantara University, I have an interest in data and have learned software such as Python, PowerBI, and SAS Viya to analyze information from Big Data. The use of these software has helped me in completing my final project and I continue to learn to improve my skills in this field to be able to compete competitively.

EXPERIENCE

Mentoring 2021 - Universitas Multimedia Nusantara   (March 2021 - December 2021)
Mentor

- Able to manage time between groups and organizations well, to contribute maximally.
- Analyze the nature and expression of participants so that they can make maximum contributions to the activities.
- Record student progress, performance, attendance, and punctuality on assigned Excel.

PT Visonet Data International   (February 2019 - May 2019)
Data Entry

- Successfully input data into the database as much as 150-350 in a day
- Checking the data to detect and correct flaws or errors.
- Maintain the confidentiality of customer data properly to improve the quality of the company.

EDUCATION

Multimedia Nusantara University   (August 2020 - Present)
Bachelor's in information systems   3.54

SMK Yuppentek 7 Tangerang   (August 2017 - June 2020)
Computer and Network Engineering **High School**

SKILLS

- Microsoft software (Word, Excel, and Power Point)
- Visualization Software (Tableau and PowerBI)
- Programming languages HTML, CSS, Python and R
- SAS VisualAnalytics
- ProjectLibre, Visual Studio Code, Jupiter Notebook

FINAL PROJECT - Data Visualization
Market Place Sales Analysis in each country   (March 2022 - May 2022)
Software Tableau

I am analyzing sales data using the Wholesale and Retail methods for each country that has the highest revenue for a period of 6 years, from 2012 to 2017. We will conduct this analysis to find out the sales trend in these countries during this period, as well as to find business opportunities that we can take in the future.
